Sir:

In conjunction with the filing of the present application, and prior to an initial Official Action on this matter, please amend the above-identified application as follows:

Preliminary Amendment: SPECIFICATION AMENDMENTS

IN THE ABSTRACT

On page 8, in the Abstract, please amend the paragraph as follows:

A table supporting ~~means 7~~ device is provided at an upper end thereof with a loop-9. The loop-9 is hung on the headrest-5 of the motor vehicle seat-1 so that the table supporting ~~means 7~~ device is positioned substantially vertically. The loop 9 is removable from the headrest-5. A plate-shaped table-11 has a table holding ~~means 15~~ mechanism. The table holding ~~means 15~~ mechanism holds the table-11 vertically rotatably by means of a horizontal shaft-13. The table holding ~~means 15~~ mechanism is provided with a vertical hole-17. The vertical hole-17 has a larger diameter than the table supporting ~~means 7~~ device. The table supporting ~~means 7~~ device is passed through the vertical hole-15 of the table holding ~~means 15~~ mechanism. A vertical bolt-19 is threadedly engaged with the table holding ~~means 15~~ mechanism. A lower end-19a of the vertical bolt-19 is in contact with a base portion-11a of the table-11 so as to maintain the table-11 at a desired angle.
